WORK EXPERIENCE

Senior Team Lead E-strats

01/2018 - Present

Islamabad, Pakistan

Achievements/Tasks

- Got Promoted to the Team Lead Position of Skyboss one of the biggest ongoing projects just after one month of joining.
- Successfully revamped the entire Skyboss Project, implementing code optimization on both the Frontend and Backend. Significantly improved SQL performance by optimizing all Stored Procedures and the Database Structure, resulting in reduced server power consumption and lowered server costs on Azure.
- Got Promoted to Senior Team Lead after successful revamp project of Skyboss.
- Managed multiple projects of all domains including Web, Mobile, etc.
- Implemented Twilio Call & Chat Feature Project with a very short deadline.
- Responsible for Planning, designing, and development of extensive business domain solutions.
- Collaboration with the Offshore Team over business requirements and development of Software Solutions.
- Analyzing business models and making recommendations to our clients that would help them expand their business.
- Get Familiar with new technologies very quickly and get work done for clients.
